Forecast for Thursday 15 Jun 2023

Weather: Any early mist will clear quickly after dawn, leaving a fine day with plenty of prolonged strong sunshine. Some fair weather cloud may bubble up during the afternoon bringing a chance of an isolated thundery shower but staying dry for most. Any isolated shower easing during the evening, with some patchy mist perhaps forming later.

Chance of cloud-free hill tops above 600m: Greater than 95%.

Low cloud and visibility: Any early morning mist or low cloud may briefly cover lower slopes as it lifts and clears after dawn. Very little cloud during the morning, and any cloud during the afternoon will be above all summits. Good to very good visibility, although briefly moderate or poor in any mist, low cloud or showers.

Meteorologist's View

High or very high UV levels in strong sunshine and very warm temperatures, even at height, mean that appropriate sun protection and adequate hydration is recommended.

Recent rainfall: measured at Neuadd: altitude 353m

Forecast for Friday 16 Jun 2023

Weather: Any early mist or low cloud clearing quickly through the morning, leaving a fine day with plenty of prolonged strong sunshine. Cloud bubbling up during the afternoon, perhaps more so than recent days, bringing an increased chance of one or two thundery showers. Potentially some low cloud or mist forming again by dawn.

Maximum wind: South to southeasterly winds, 10-15 mph.

Chance of cloud-free hill tops 600m: Greater than 95%.

Low cloud and visibility: Early mist or low cloud may briefly cover lower slopes as it clears. Scattered cloud during the day will be above all summits. Good to very good visibility, although briefly moderate in any showers, and moderate or poor in any mist or low cloud.

Temperature: **Valleys:** Plus 14 Celsius, rising to plus 25 Celsius.
At 600m: Plus 15 Celsius, rising to plus 20 Celsius.
Freezing level: Well above all summits.
